DISCLAIMER & STATEMENT OF RIGHTS

The information presented herein represents the views of the author as at the time of publication. The author reserves the right to change and update his prices, because prices of building materials tend to change based on fluctuations in the market.

This product is for informational purpose only, and the author does not accept responsibilities for any liabilities or damages, be it real or perceived, resulting from the use of this information. The author is not directly or indirectly responsible for any sudden change in prices of building materials in this eBook, if used as the basis of your **“Build up Rates”**.

We are assuring you that all effort has been made so that you can rely on the prices of building materials herein, the author shall not be liable for any counter-use or misuse of the content of this eBook. The readers are also solely responsible for any outcome of transactions made with the wholesalers/distributors whose phone numbers are provided hereinafter.

Also, let it be noted that you’ve got no rights to resell this material in any form, be it: electronic, transmitted, photocopied, spiritual etc. without the prior written permission of the Author.

We hate to pay our lawyers or slam anyone with a lawsuit.

INTRODUCTION

A lot of us own, maintain and also construct structures every now and then.

Consequently, we find ourselves in need of obtaining building materials; as we all must know, we should not just jump into the market to obtain materials merely with the picture of what we are buying even without the necessary specifications. This eBook is your “**help meet**” as regards prices and specifications of building materials. It is a quick hand book to ascertain and estimate the prices of construction materials to help you in your budgeting.

IMAGINE!!!

- Imagine you can get the prices of any building material within minutes without visiting the market!
- Imagine you don't have to wait for a professional to tell you or interpret the specification of the materials you will be obtaining!
- Imagine you don't need to visit the market every time you need prices to estimate your “**Build up Rates**” for pricing any **BOQ**!
- Imagine you can get the market information about any building material you want to invest in within minutes!
- Imagine you can increase your vast knowledge about the various building materials being sold in the market without getting up from your sit.

Anyway...stop imagining, the above solutions are provided in this **eBook**.

This **eBook** contains the prices of **all building materials in Nigeria** alongside the **phone numbers** of accredited **distributors** and **tradesmen**. You will get the prices of all major building materials needed to construct any type of building construction in Nigeria. Any other building materials of which prices are not given are special materials which have to be fabricated based on the project and client requirements.

I hope you find the information provided relevant to your field... God Bless!

ABOUT THE AUTHOR

I, **Kehinde LAWAL**, is a young ambitious Nigerian who aims at alleviating Nigerians from poverty to wealth through the power of information. I believe in financial education, I got my profession as a quantity surveyor and I mind my business.

I had tried my possible best to create a colossal and benevolent eBook in the construction industry. You can only make us proud by making use of our eBook out there, and proving us right.

If you wish to donate to this great course, kindly make use of this donation link and God bless you: bit.ly/kehindelawal1

Should you have any feedback as to how this eBook as benefited you, you may share with us using any of the following media.
